1 KIBESE KITAANSHI – NTUUNTULWIILo

[TUKATO 20]

Tuuntulula kino kibaaba kufumya mu kizuungu kutwaala mu Kiikaonde.

The happiest moments of our lives come when we accomplish something that we never expected. The unexpected, however, to be appreciated, should be the resultant of our personal efforts. I remember when I was still in Grade 10 how I used to fail in all the subjects. In Grade 11, my performance became ever worse such that there was no single subject that I got above 50%. I was never free to mingle with my peers especially when I would bring in school related stores.

It was during the December holiday that I sat down and reflected. I thought about how my parents had suffered and sacrificed a lot just to see me forge ahead with my school. This was my turning point. I could not wait for schools to re-open. My final year surprised many. Both the teachers and my fellow learners were very amazed at my performance. Here I am studying medicine at University of Zambia (UNZA).
